

WEALTH MANAGEMENT

TOLEDO AREA LEADING FINANCIAL ADVISORS

Leading Financial Advisors is a resource being provided to Toledo Business Journal and Development News readers.

We have worked to identify financial advisors in our area with the highest levels of assets under management (AUM). At this current stage, financial advisors are included from a geographical area with a radius of*

approximately 35 miles around Toledo. We are interested in expanding this geography with time.

Information from public records filings, third party industry sources, and area financial advisory firms has been used in this effort.

We are continuing to learn about registered financial advisors that may qualify for

inclusion who have high levels of assets under management. We seek information from area professionals that will assist these efforts.

* AUM is reached by investment advisory assets or brokerage assets or both combined, confirmed through individual advisors and firm representatives.

**CFP® Certification:
The Standard of Excellence**

Today more than ever, CERTIFIED FINANCIAL PLANNER™ Professionals are an essential resource. From budgeting, to planning for retirement, to saving for education, to managing taxes and insurance coverage, "finances" doesn't mean just one thing for most Americans - and "financial planning" means much more than just investing. Bringing all the pieces of a person's financial life together is a challenging task.

Although many professionals may call themselves "financial planners", CFP® professionals have completed extensive training and experience requirements and are held to rigorous ethical standards. They understand all the complexities of the changing financial climate and will make recommendations in the consumer's best interest.

In life, you question everything. The same should be true when it comes to managing your wealth. Do you know what your broker is basing their recommendations on? Do they stand by their word? Do you know how much you're paying in fees? And how those fees affect your returns? Ask your broker, and if you don't like their answers, ask again at Schwab. We think you'll like what our Financial Consultants have to say.

Talk to us today about a more modern approach to investing.
